SUMMARY SECTION

Investment Objective

Monongahela All Cap Value Fund (the “Fund”) seeks total return through long-term capital appreciation and income.

Fees and Expenses

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment)	
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of the offering price)	None
Maximum Deferred Sales Charge (Load) (as a percentage of the offering price)	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and Distributions (as a percentage of the offering price)	None
Redemption Fee (as a percentage of amount redeemed within 60 days of purchase, if applicable)	1.00%
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	0.75%
Distribution and/or Service (12b-1) Fees	None
Other Expenses	14.09%
Total Annual Fund Operating Expenses	14.84%
Fee Waiver and/or Expense Reimbursement ⁽¹⁾	(13.99)%
Net Annual Fund Operating Expenses	0.85%

⁽¹⁾ Rodgers Brothers, Inc. d/b/a Monongahela Capital Management (the “Adviser”) has contractually agreed to waive its fee and/or reimburse Fund expenses to limit Total Annual Fund Operating Expenses (excluding all taxes, interest, portfolio transaction expenses, dividend and interest expenses on short sales, acquired fund fees and expenses, proxy expenses and extraordinary expenses) to 0.85% through September 1, 2016 (the “Expense Cap”). The Expense Cap may only be raised or eliminated with the consent of the Board of Trustees. Net Annual Fund Operating Expenses will increase if exclusions from the Expense Cap apply.

Example. This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

1 Year	3 Years	5 Years	10 Years
\$87	\$1,708	\$4,332	\$8,940

Portfolio Turnover. The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund’s performance. From the date of the Fund’s inception, July 1, 2013, through the end of the Fund’s fiscal year, April 30, 2014, the Fund’s portfolio turnover rate was 32% of the average value of its portfolio.

Principal Investment Strategies

The Fund seeks to achieve its investment objective by investing primarily in a portfolio of domestic equity securities, which primarily consist of common and preferred stocks and securities convertible into common stocks,

of companies of any market capitalization. The Fund invests in securities that the Adviser believes are undervalued and exhibit the likelihood of exceeding market returns. Utilizing fundamental research, the Fund seeks equity securities selling at discounts to their underlying values with the intention to hold these securities until their market values reflect or exceed their intrinsic values. Under normal circumstances the Adviser expects the holding period of the equity securities in which the Fund invests to be between 2 and 6 years. While the Fund's vision is long term, however, the relationship of equity price to intrinsic value will ultimately determine the holding period of a given security. When discounts to intrinsic value are discovered, a security becomes a candidate for purchase. Conversely, when the market places a premium on a security as compared to its intrinsic value, the security becomes a sell candidate. Consistent with its investment objective, the Fund intends to invest opportunistically in the various market capitalization segments and to vary its allocations to micro-, small-, mid- and large-capitalization companies.

The Fund may invest in foreign equity securities and sponsored and unsponsored American Depositary Receipts ("ADRs") of companies located in developed countries using the same value-oriented approach the Fund uses to invest in domestic equity securities. The location of companies in which the Fund invests may be determined by a company's country of incorporation, the location of the securities exchange on which a company is principally traded, or the location from which a company derives the majority of its revenues.

The Fund may sell covered call options with proceeds totaling up to 10% of the value of the Fund's assets. The Adviser believes this strategy will add to the performance and reduce the volatility of the Fund by generating income to offset losses on portfolio securities in falling markets and limiting returns on portfolio securities to the exercise price in rising markets.

The Fund may invest up to 30% of its assets in fixed-income securities whose returns the Adviser believes will provide comparable returns to the equities in which the Fund invests. The Fund will only invest in fixed-income investments of investment grade quality, defined as "Baa" in the case of Moody's Investors Service, Inc. ("Moody's") and "BBB" in the case of Standard & Poor's Financial Services, LLC, a division of the McGraw-Hill Companies, Inc. ("S&P").

Principal Investment Risks

The Fund's net asset value ("NAV") and investment return will fluctuate based upon changes in the value of its portfolio securities. You could lose money on your investment in the Fund, or the Fund could underperform other investments. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

It is important that you closely review and understand the risks of investing in the Fund.

ADR Risk. The Fund may invest in ADRs. ADR risks include, but are not limited to, fluctuations in foreign currencies and foreign investment risks, such as political and financial instability, less liquidity and greater volatility, lack of uniform accounting, auditing and financial reporting standards and increased price volatility. In addition, ADRs may not track the price of the underlying foreign securities, and their value may change materially at times when U.S. markets are not open for trading.

Equity Risk. The Fund's equity holdings, which include common stocks, may decline in value because of changes in price of a particular holding or a broad stock market decline. Common stock ranks below preferred stock and debt securities in claims for dividends and for assets of the company in a liquidation or bankruptcy. The value of a security may decline for a number of reasons which may relate directly to the issuer of a security or broader economic or market events including changes in interest rates.

Fixed-Income Securities Risk. The Fund may invest in fixed-income (debt) securities, which are generally subject to the following risks:

Credit Risk. The financial condition of an issuer of a fixed-income security may cause the issuer to default. A decline in an issuer's credit rating may cause a decrease in the value of the security and an increase in investment risk and price volatility.

Interest Rate Risk. An increase in interest rates typically causes a decrease in the value of fixed-income securities in which the Fund may invest. Given the historically low interest rate environment, risks associated with rising rates are heightened.

Foreign Investments Risk. Foreign investments may be subject to the same risks as domestic investments and to additional risks which include international trade, currency, political, regulatory and diplomatic risks, which may affect their value. Also, foreign securities are subject to the risk that their market price may not reflect the issuer's condition because there is not sufficient publicly available information about the issuer. Investments in securities of foreign issuers are subject to fluctuations in the value of the issuer's local currency and may be subject to foreign withholding and other taxes.

Large Capitalization Company Risk. The Fund's investments in large capitalization companies may underperform other segments of the market because they may be less responsive to competitive challenges and opportunities and unable to attain high growth rates during periods of economic expansion.

Management Risk. The Fund is actively managed, and its performance will reflect the Adviser's ability to make investment decisions that are suited to achieving the Fund's investment objectives.

Securities selected by the Adviser for the Fund may not perform to expectations. This could result in the Fund's underperformance compared to other funds with similar investment objectives.

Market Events Risk. Turbulence in the financial markets and reduced liquidity in equity, credit and fixed-income markets may negatively affect issuers worldwide, which could have an adverse effect on the Fund. In addition, there is a risk that policy changes by the U.S. Government and/or Federal Reserve, such as increasing interest rates or the tapering of quantitative easing measures aimed at stimulating the economy, could cause increased volatility in financial markets and higher levels of Fund redemptions, which could have a negative impact on the Fund.

Mid Capitalization Company Risk. Investments in mid capitalization companies may be less liquid and their securities' prices may fluctuate more than those of larger, more established companies. These factors could adversely affect the Fund's ability to sell such securities at a desirable time and price.

Preferred Stock Risk. Preferred stock is a class of a capital stock that typically pays dividends at a specified rate. Preferred stock is generally senior to common stock, but subordinate to debt securities, with respect to the payment of dividends and on liquidation of the issuer. The market value of preferred stock generally decreases when interest rates rise and is also affected by the issuer's ability to make payments on the preferred stock.

Selling Call Options Risk. The Fund may sell covered call options and may be required to sell the underlying security and, therefore, not participate in gains if the stock price exceeds the exercise price, before the expiration date of the option.

Small and Micro Capitalization Company Risk. The Fund's investments in small and micro capitalization companies may be less liquid and their securities' prices may fluctuate more than those of larger, more established companies. These factors could adversely affect the Fund's ability to sell such securities at a desirable time and price.

Value Investment Risk. Value stocks are subject to the risk that their intrinsic value may never be realized by the market. From time to time "value" investing falls out of favor with investors.

Performance Information

The Fund is newly created and does not have a full calendar year performance record. Performance information will be included after the Fund has been in operation for one calendar year. Past performance does not necessarily indicate how the Fund will perform in the future.

Updated performance information is available at www.Moncapfund.com or by calling (855) 392-9331 (toll free).

Management

Investment Adviser. Monongahela Capital Management is the Fund's investment adviser.

Portfolio Managers. Mark Rodgers and Michael C. Rodgers are primarily responsible for the day-to-day management of the Fund. As President of Monongahela Capital Management, Mark Rodgers will make final decisions on all investments. Mark Rodgers and Michael C. Rodgers have served as co-portfolio managers for the Fund since its inception in 2013.

Purchase and Sale of Fund Shares

You may purchase or sell (redeem) shares of the Fund on any day that the New York Stock Exchange (the "NYSE") is open for business. You may purchase or redeem shares directly from the Fund by calling (855) 392-9331 (toll free) or writing to the Fund at Monongahela All Cap Value Fund, P.O. Box 588, Portland, Maine 04112. You also may purchase or redeem shares of the Fund through your financial intermediary. The Fund accepts investments in the following minimum amounts:

	Minimum Initial Investment	Minimum Additional Investment
Standard Accounts	\$5,000	\$250
Retirement Accounts	\$5,000	\$250

Tax Information

Shareholders may receive distributions from the Fund, which may be taxed to shareholders other than tax-exempt investors (such as tax-deferred retirement plans and accounts) as ordinary income or capital gains. If you are investing through a tax-advantaged account, you may still be subject to taxation upon withdrawals from that account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

DETAILS REGARDING PRINCIPAL INVESTMENT STRATEGIES AND RISKS

The Fund seeks total return through long-term capital appreciation and income. The Fund's investment objective is non-fundamental and may be changed by the Board of Trustees without a vote of shareholders.

Additional Information Regarding Principal Investment Strategies

The Adviser uses proprietary fundamental research to determine the intrinsic value of any given security. Based on the defined intrinsic value, the Fund will buy securities in anticipation of a high total return which considers both appreciation and income. The Fund considers securities in all market capitalizations and all market sectors for investment, to maintain a balanced, diversified portfolio. Consistent with its investment objective, the Fund intends to invest opportunistically in the various market capitalization segments and to vary its allocations to micro, small, mid and large capitalization companies. When the Fund determines that a position is over-valued through appreciation, or no longer offers growth potential, or the underlying reasons for inclusion in the portfolio change, the position will be decreased or removed from the portfolio.

The determination of intrinsic value is at the core of the Adviser's discovery process for security selection. The Adviser's proprietary research model, which is constantly updated, strives to establish a base value and then searches for market discrepancies. The Adviser utilizes a team approach to gathering, analyzing and recording relevant data. When discounts to intrinsic value are discovered, the security becomes a candidate for purchase. Conversely, when the market places a premium on a security as compared to its intrinsic value, the security becomes a sell candidate. The Adviser's intrinsic value research is complemented with technical research, industry analysis, market sentiment and other considerations.

The Fund may invest in foreign equity securities and sponsored and unsponsored American Depositary Receipts of companies located in developed countries from the world's twenty major economies (G20) and Ireland using the same value-oriented approach the Fund uses to invest in domestic equity securities. The Fund may sell covered call options with proceeds totaling up to 10% of the value of the Fund's assets. The Adviser believes this strategy will add to the performance and reduce the volatility of the Fund by generating income to offset losses on portfolio securities in falling markets and limiting returns on portfolio securities to the exercise price in rising markets.

The Fund may invest up to 30% of its assets in fixed-income securities of varying maturities and durations whose returns the Adviser believes will provide comparable returns to the equities in which the Fund invests. The Fund will only invest in fixed-income investments of investment grade quality, defined as "Baa" in the case of Moody's and "BBB" in the case of S&P. The Fund will not invest in fixed-income securities that are not assigned a rating by Moody's or S&P. The Fund may retain securities whose ratings have declined below the lowest permissible rating category if the Adviser determines that retaining such security is in the best interests of the Fund. The Fund may not invest more than 5% of the value of its net assets in non-investment grade debt securities.

Temporary Defensive Position. In order to respond to adverse market, economic, political or other conditions, the Fund may assume a temporary defensive position that is inconsistent with its principal investment objective and/or strategies and may invest, without limitation, in cash or high quality cash equivalents (including money market instruments, commercial paper, certificates of deposit, banker's acceptances and time deposits). A defensive position, taken at the wrong time, may have an adverse impact on the Fund's performance. The Fund may be unable to achieve its investment objective during the employment of a temporary defensive position.

Additional Information Regarding Principal Investment Risks

The Fund's NAV and investment return will fluctuate based upon changes in the value of its portfolio. You could lose money on your investment in the Fund, or the Fund could underperform other investments. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

ADR Risk. Investments in ADRs may involve risks relating to political, economic or regulatory conditions in foreign countries. These risks include fluctuations in foreign currencies, political and financial instability, less liquidity and greater volatility, lack of uniform accounting, auditing and financial reporting standards and increased price volatility. The underlying securities are typically denominated (or quoted) in a currency other than U.S. dollars.

The securities underlying ADRs trade on foreign exchanges at times when U.S. markets are not open for trading. As a result, the value of ADRs may not track the price of the underlying securities and may change materially at times when the U.S. markets are not open for trading.

Equity Risk. Equity holdings, including common stocks, may decline in value because of changes in price of a particular holding or a broad stock market decline. These fluctuations could be a drastic movement or a sustained trend. The value of a security may decline for a number of reasons which may relate directly to the issuer of a security, such as management performance, financial leverage and reduced demand for the issuer's goods or services or broader economic or market events, including changes in interest rates. Common stocks in general are subject to the risk of an issuer liquidating or declaring bankruptcy, in which case the claims of owners of the issuer's debt securities and preferred stock take precedence over the claims of common stockholders. The value of convertible securities tends to decline as interest rates rise and, because of the conversion feature, tends to vary with fluctuation in the market value of the underlying securities or any changes in the issuer's credit rating.

Fixed-Income Securities Risk. The Fund may invest in fixed-income (debt) securities whose value depends generally on an issuer's credit rating and the interest rate of the security. Fixed-income securities are generally subject to the following risks:

Credit Risk. The financial condition of an issuer of a fixed-income security may cause the issuer to default or become unable to pay interest or principal due on the security. If an issuer defaults, a fixed-income security could lose all of its value, be renegotiated at a lower interest rate or principal amount or become illiquid. Generally, investment risk and price volatility increase as a fixed-income security's credit rating declines, which can cause the price of fixed-income securities to go down.

Interest Rate Risk. The value of fixed-income securities may decline due to changes in prevailing interest rates. An increase in interest rates typically causes a decrease in the value of fixed-income securities in which the Fund may invest. Fixed-income securities with longer durations tend to be more sensitive to changes in interest rates, generally making them more volatile than fixed-income securities with shorter durations. Given the historically low interest rate environment, risks associated with rising rates are heightened.

Foreign Investments Risk. The value of foreign investments may be affected by the imposition of new or amended government regulations, changes in diplomatic relations between the U.S. and another country, political and economic instability, the imposition or tightening of exchange controls or other limitations on repatriation of foreign capital or nationalization, increased taxation or confiscation of investors' assets. Changes in the exchange rate between U.S. dollars and a foreign currency may reduce the value of an investment made in a security denominated in that foreign currency. Also, foreign securities are subject to the risk that an issuer's securities may not reflect the issuer's condition because there is not sufficient publicly available information about the issuer. This risk may be greater for investments in issuers in emerging or developing markets. Investments in securities of foreign issuers may also be subject to foreign withholding and other taxes.

Large Capitalization Company Risk. Investments in large capitalization companies may go in and out of favor based on market and economic conditions and may underperform other market segments. Some large capitalization companies may be unable to respond quickly to new competitive challenges or to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion. As such, returns on investments in stocks of large capitalization companies could trail the returns on investments in stocks of small and mid capitalization companies.

Management Risk. The Fund is actively managed, and its performance will reflect the Adviser's ability to make investment decisions that are suited to achieving the Fund's investment objective. Due to its active management, the Fund could underperform other mutual funds with similar investment objectives. Further, the Fund's performance may deviate from overall market returns to a greater degree than funds that do not employ a similar strategy. Securities selected by the Adviser for the Fund may not perform to expectations. This could result in the Fund's underperformance compared to other funds with similar investment objectives.

Market Events Risk. Turbulence in the financial markets and reduced liquidity in equity, credit and fixed-income markets may negatively affect issuers worldwide, which could have an adverse effect on the Fund. Following the financial crisis that began in 2007, the Federal Reserve has attempted to stabilize the U.S. economy and support the U.S. economic recovery by keeping the federal funds rate at or near zero percent. In addition, the Federal Reserve has purchased large quantities of securities issued or guaranteed by the U.S. Government or its agencies or instrumentalities on the open market, a strategy known as quantitative easing. As the Federal Reserve tapers or reduces quantitative easing, and if the Federal Reserve raises the federal funds rate, there is a risk that interest rates across the U.S. financial system will rise. These policy changes may expose markets to heightened volatility and may reduce liquidity for certain Fund investments, causing the value of the Fund's investments and share price to decline. To the extent that the Fund experiences high redemptions because of these governmental policy changes, the Fund may experience increased portfolio turnover, which will increase the costs that the Fund incurs and will lower the Fund's performance.

Mid Capitalization Company Risk. Investments in mid capitalization companies may entail greater risks and such securities' prices may fluctuate more and have a higher degree of volatility than those of larger, more established companies. Securities of mid capitalization companies may be traded in lower volume and be less liquid. At certain times, the general market may not favor the mid sized companies in which the Fund invests and as a result the Fund could underperform the general market. Mid sized companies may have more limited product lines, markets and financial resources that make them more susceptible to economic and market setbacks. The smaller the company, the greater effect these risks may have on the company's operations and performance which could have a significant impact on the price of the security. These factors could adversely affect the Fund's ability to sell such securities at a desirable time and price.

Preferred Stock Risk. If interest rates rise, the dividend on preferred stock may be less attractive, causing the price of preferred stock to decline. Preferred stock may have mandatory sinking fund provisions, as well as provisions for their call or redemption prior to maturity which can have a negative effect on their prices when interest rates decline. Preferred stocks are equity securities because they do not constitute a liability of the issuer and therefore do not offer the same degree of protection of capital or continuation of income as debt securities. The rights of preferred stock on distribution of a corporation's assets in the event of its liquidation are generally subordinated to the rights associated with a corporation's debt securities. Preferred stock may also be subject to credit risk.

Selling Call Options Risk. The Fund may sell covered call options. When this occurs, the Fund receives a premium for selling a call option; however, the price the Fund realizes from the sale of the stock upon exercise of the option will be below and could be substantially below the prevailing market price of the stock. The purchaser of the covered call option may exercise the call at any time during the option period (the time between when the call is sold and when it expires). When a call option which the Fund has written is exercised, the Fund typically delivers the security upon which the call is written. This means that the Fund generally delivers a security out of its portfolio and may replace it, or purchases the same security on the open market for delivery. Under either scenario the Fund would face increased transaction costs because of its need to purchase securities, either for delivery to the party exercising the call option or to replace a security delivered to the other party out of its portfolio, subject to call options.

Small and Micro Capitalization Company Risk. Investments in small and micro capitalization companies may entail greater risks and their securities' prices may fluctuate more and have a higher degree of volatility than those of larger, more established companies. Securities of small and micro capitalization companies may be traded in lower volume and be less liquid. At certain times, the general market may not favor the smaller, growth-oriented companies in which the Fund invests and as a result the Fund could underperform the general market. Smaller companies may have more limited product lines, markets and financial resources that make them more susceptible to economic and market setbacks. Additionally, information about these companies may not be readily available. The smaller the company, the greater effect these risks may have on the company's operations and performance which could have a significant impact on the price of the security. These factors could adversely affect the Fund's ability to sell such securities at a desirable time and price.

Value Investment Risk. Value stocks are subject to the risk that their intrinsic value may never be realized by the market. This may result in the value stocks' prices remaining undervalued for extended periods of time. The Fund's

performance also may be affected adversely if value stocks become unpopular with or lose favor among investors. Different investment styles tend to shift in and out of favor, depending on market conditions and investor sentiment. The Fund's value style could cause it to underperform funds that use a growth or non-value approach to investing or have a broader investment style.

MANAGEMENT

The Monongahela All Cap Value Fund (the “Fund”) is a series of Forum Funds (the “Trust”), an open-end, management investment company (mutual fund). The Board of Trustees (the “Board”) oversees the management of the Fund and meets periodically to review the Fund’s performance, monitor investment activities and practices and discuss other matters affecting the Fund. Additional information regarding the Board and the Trust’s executive officers may be found in the Fund’s Statement of Additional Information (the “SAI”), which is available from the Fund’s website at www.Moncapfund.com.

The Adviser

The Fund’s adviser is Monongahela Capital Management, 800 Cranberry Woods, Suite 200, Cranberry Twp, PA 16066. Monongahela Capital Management (“MCM”) is a wholly-owned subsidiary of Rodgers Brothers, Inc. MCM manages equity and balanced portfolios for institutional and retail clients. MCM is an investment advisory firm registered with the Securities and Exchange Commission. The firm provides portfolio management advice for individuals, financial institutions, pension and profit sharing plans, IRAs, trust’s estates and charitable organizations. As of July 31, 2014, the Adviser had over \$297 million of assets under management.

Subject to the general oversight of the Board, the Adviser makes investment decisions for the Fund. The Adviser receives an advisory fee from the Fund at an annual rate equal to 0.75% of the Fund’s average annual daily net assets under the terms of the Advisory Agreement. For the fiscal year ended April 30, 2014 the Adviser waived its entire advisory fee for the Fund. The Adviser has contractually agreed to waive its fee and/or reimburse Fund expenses to limit Total Annual Fund Operating Expenses (excluding all taxes, interest, portfolio transaction expenses, dividend and interest expenses on short sales, acquired fund fees and expenses, proxy expenses and extraordinary expenses) to 0.85% through September 1, 2016 (“Expense Cap”). The Expense Cap may only be raised or eliminated with the consent of the Board. Net Annual Fund Operating Expenses may increase if exclusions from the Expense Cap apply.

A discussion summarizing the basis on which the Board approved the Investment Advisory Agreement between the Trust and the Adviser is included in the Fund’s annual report for the period ended April 30, 2014.

Portfolio Managers

Mark Rodgers and Michael C. Rodgers are the co-portfolio managers of the Fund. Mark Rodgers retains final decision making authority over the Fund’s investments.

- Mark Rodgers is the Co-Manager of the Monongahela All Cap Value Fund. Mark is President of Rodgers Brothers, Inc. d/b/a Monongahela Capital Management and the President of Monongahela Capital Management. He is portfolio manager for equity and fixed-income portfolios for individuals and institutional privately managed accounts. In 1985, Mark co-founded Rodgers Brothers, Inc. with his brother Gary Rodgers, the current CEO of Rodgers Brothers. For the six years prior to the formation of Rodgers Brothers, Inc., he was a Vice President and a registered representative of Legg, Mason, Masten Co. (formerly AE Masten,) a broker/dealer in Pittsburgh, Pennsylvania. Mark is also a founder and director of Aligned Partners Trust Company, a Pittsburgh based trust company formed in 1999. Mark has more than 35 years of investment management experience. He is extensively involved in all aspects of research with respect to capital markets and a wide range of industries, individual security selection and portfolio construction. Mark is a Certified Public Accountant (inactive) and graduated from Pennsylvania State University in 1976 with a BS in accounting.
- Michael C. Rodgers is the Co-Manager of the Monongahela All Cap Value Fund. Michael is a Director at Rodgers Brothers, Inc. He is a portfolio manager for equity and fixed-income portfolios for individuals and institutional privately managed accounts at Monongahela Capital Management. Michael is the brother of Mark Rodgers and Gary Rodgers. Michael joined Rodgers Brothers, Inc. in 1998. Prior to joining Rodgers Brothers, Inc., Michael worked for Barclays Bank PLC from 1983 to 1998 in a variety of corporation finance positions. Michael has approximately 30 years of finance and investment experience. Michael attended the Pennsylvania State University and graduated with a BS in 1980. In 1982, Mr. Rodgers completed an MBA in Finance at Bowling Green State University. In 1990, Mr. Rodgers completed a MS in Real Estate at New York University’s School of Continuing Education.

The SAI provides additional information about the compensation of the portfolio managers, other accounts managed by the portfolio managers and the ownership of Fund shares by the portfolio managers.

Other Service Providers

Atlantic Fund Administration, LLC (d/b/a Atlantic Fund Services) (“Atlantic”) provides fund accounting, fund administration, compliance and transfer agency services to the Fund and the Trust and supplies certain officers of the Trust, including a Principal Executive Officer, a Principal Financial Officer, a Chief Compliance Officer, an Anti-Money Laundering Compliance Officer and additional compliance support personnel.

Foreside Fund Services, LLC (the “Distributor”), the Trust’s principal underwriter, acts as the Trust’s distributor in connection with the offering of Fund shares. The Distributor may enter into arrangements with banks, broker-dealers and other financial intermediaries through which investors may purchase or redeem shares. The Distributor is not affiliated with the Adviser or with Atlantic or their affiliates.

Fund Expenses

The Fund is charged for those expenses that are directly attributable to it, while other expenses are allocated proportionately among the Fund and other series of the Trust based upon methods approved by the Board. The Adviser or other service providers may waive all or any portion of their fees and may reimburse certain expenses of the Fund. Any agreement to waive fees or to reimburse expenses increases the investment performance of the Fund for the period during which the waiver or reimbursement is in effect.

YOUR ACCOUNT

How to Contact the Fund

E-mail the Fund at:

mcmvalue.ta@atlanticfundservices.com

Website Address:

Wire investments (or ACH payments):

Please contact the transfer agent at (855) 392-9331 (toll free) to obtain the ABA routing number and account number for the Fund.

General Information

You may purchase or sell (redeem) shares of the Fund on any day that the NYSE is open for business. Notwithstanding this fact, the Fund may, only in the case of an emergency, calculate its NAV and accept and process shareholder orders when the NYSE is closed.

You may purchase or sell shares of the Fund at the next NAV calculated (normally 4:00 p.m., Eastern Time) after the transfer agent or your approved broker-dealer or other financial intermediary receives your request in good order. "Good order" means that you have provided sufficient information necessary to process your request as outlined in this Prospectus, including any required signatures, documents, payment and Medallion Signature Guarantees. All requests to purchase or sell Fund shares received in good order prior to the Fund's close will receive that day's NAV. Requests received in good order after the Fund's close or on a day when the Fund does not value its shares will be processed on the next business day and will be priced at the next NAV. The Fund cannot accept orders that request a particular day or price for the transaction or any other special conditions.

Shares of the Fund will only be issued against full payment, as described more fully in this Prospectus and the SAI. The Fund does not issue share certificates.

If you purchase shares directly from the Fund, you will receive a confirmation of each transaction and quarterly statements detailing Fund balances and all transactions completed during the prior quarter. Automatic reinvestments of distributions and systematic investments and withdrawals may be confirmed only by quarterly statement. You should verify the accuracy of all transactions in your account as soon as you receive your confirmations and quarterly statements.

The Fund may temporarily suspend or discontinue any service or privilege, including systematic investments and withdrawals, wire redemption privileges and telephone or internet redemption privileges, if applicable. The Fund

reserves the right to refuse any purchase request including, but not limited to, requests that could adversely affect the Fund or its operations. If the Fund were to refuse any purchase request, it would notify the purchaser within two business days of receiving a purchase request in good order.

When and How NAV is Determined. The Fund calculates its NAV as of the close of trading on the NYSE (normally 4:00 p.m., Eastern Time) on each weekday except days when the NYSE is closed. The NYSE is open every weekday, Monday through Friday, except on the following holidays: New Year's Day, Martin Luther King, Jr. Day (the third Monday in January), Presidents' Day (the third Monday in February), Good Friday, Memorial Day (the last Monday in May), Independence Day, Labor Day (the first Monday in September), Thanksgiving Day (the fourth Thursday in November) and Christmas Day. NYSE holiday schedules are subject to change without notice. The NYSE may close early on the day before each of these holidays and the day after Thanksgiving Day. To the extent that the Fund's portfolio investments trade in markets on days when the Fund is not open for business, the value of the Fund's assets may vary on those days. In addition, trading in certain portfolio investments may not occur on days that the Fund is open for business, as markets or exchanges other than the NYSE may be closed.

The NAV of the Fund is determined by taking the market value of the total assets of the Fund, subtracting the liabilities of the Fund and then dividing the result (net assets) by the number of outstanding shares of the Fund.

The Fund values securities for which market quotations are readily available, including exchange-traded investment companies, at current market value, except for certain short-term securities that are valued at amortized cost. Securities for which market quotations are readily available are valued using the last reported sales price provided by independent pricing services as of the close of trading on the NYSE on each Fund business day. In the absence of sales, such securities are valued at the mean of the last bid and asked price. Non-exchange traded securities for which quotations are readily available are generally valued at the mean between the current bid and asked price. Investments in non-exchange traded investment companies are valued at their NAVs.

Fixed-income securities may be valued at prices supplied by the Fund's pricing agent based on broker-supplied or dealer-supplied valuations or on matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity.

Market quotations may not be readily available or may be unreliable if, among other things, (1) the exchange on which a Fund portfolio security is principally traded closes early, (2) trading in a portfolio security was halted during the day and did not resume prior to the time that the Fund calculates its NAV, or (3) events occur after the close of the securities markets on which the Fund's portfolio securities primarily trade but before the time the Fund calculates its NAV.

If market quotations are not readily available or the Fund reasonably believes that they are unreliable, the Fund will seek to value such securities at fair value, as determined in good faith using procedures approved by the Board. The Board has delegated day-to-day responsibility for fair valuation determinations in accordance with the procedures to a Valuation Committee composed of management members who are appointed to the Committee by the Board. The Committee makes such determinations under the supervision of the Board. Fair valuation may be based on subjective factors. As a result, the fair value price of a security may differ from that security's market price and may not be the price at which the security may be sold. Fair valuation could result in a different NAV than a NAV determined by using market quotations.

Securities of smaller companies are more likely to require a fair value determination because they may be thinly traded and less liquid than securities of larger companies.

The Fund's investments in foreign securities are more likely to require a fair value determination than investments in domestic securities because circumstances may arise between the close of the market on which the securities trade and the time that the Fund values its portfolio securities. In determining fair value prices of foreign securities, the Fund may consider the performance of securities on their primary exchanges, foreign currency appreciation or depreciation, securities market movements in the U.S. and other relevant information as related to the securities.

Transactions Through Financial Intermediaries. The Fund has authorized certain financial services companies, broker-dealers, banks and other agents, including the designees of such entities (collectively, “financial intermediaries”), to accept purchase and redemption orders on the Fund’s behalf. If you invest through a financial intermediary, the policies and fees of the financial intermediary may be different from the policies and fees if you had invested directly in the Fund. Among other things, financial intermediaries may charge transaction fees and may set different minimum investment restrictions or limitations on buying or selling Fund shares. You should consult your broker or another representative of your financial intermediary for more information.

The Fund will be deemed to have received a purchase or redemption order when a financial intermediary receives the order. All orders to purchase or sell shares are processed as of the next NAV calculated after the order has been received in good order by a financial intermediary. Orders are accepted until the close of trading on the NYSE every business day (normally 4:00 p.m., Eastern Time) and are processed, including by financial intermediaries, at that day’s NAV.

Payments to Financial Intermediaries. The Fund and its affiliates (at their own expense) may pay compensation to financial intermediaries for shareholder-related services and, if applicable, distribution-related services, including administrative, recordkeeping and shareholder communication services. For example, compensation may be paid to make Fund shares available to sales representatives and/or customers of a fund supermarket platform or a similar program sponsor or for services provided in connection with such fund supermarket platforms and programs.

The amount of compensation paid to different financial intermediaries may vary. The compensation paid to a financial intermediary may be based on a variety of factors, including average assets under management in accounts distributed and/or serviced by the financial intermediary, gross sales by the financial intermediary and/or the number of accounts serviced by the financial intermediary that invest in the Fund. To the extent that the Fund pays all or a portion of such compensation, the payment is designed to compensate the financial intermediary for providing services that would otherwise be provided by the Fund’s transfer agent and/or administrator.

The Adviser or another Fund affiliate, out of its own resources, may provide additional compensation to financial intermediaries. Such compensation is sometimes referred to as “revenue sharing.” Compensation received by a financial intermediary from the Adviser or another Fund affiliate may include payments for shareholder servicing, marketing and/or training expenses incurred by the financial intermediary, including expenses incurred by the financial intermediary in educating its salespersons with respect to Fund shares. For example, such compensation may include reimbursements for expenses incurred in attending educational seminars regarding the Fund, including travel and lodging expenses. It may also cover costs incurred by financial intermediaries in connection with their efforts to sell Fund shares, including costs incurred in compensating registered sales representatives and preparing, printing and distributing sales literature.

Any compensation received by a financial intermediary, whether from the Fund or its affiliates, and the prospect of receiving such compensation, may provide the financial intermediary with an incentive to recommend the shares of the Fund over other potential investments. Similarly, the compensation may cause financial intermediaries to elevate the prominence of the Fund within its organization by, for example, placing it on a list of preferred funds.

Anti-Money Laundering Program. Customer identification and verification are part of the Fund’s overall obligation to deter money laundering under federal law. The Trust’s Anti-Money Laundering Program is designed to prevent the Fund from being used for money laundering or the financing of terrorist activities. In this regard, the Fund reserves the right, to the extent permitted by law, (1) to refuse, cancel or rescind any purchase order or (2) to freeze any account and/or suspend account services. These actions will be taken when, at the sole discretion of Trust management, they are deemed to be in the best interest of the Fund or in cases when the Fund is requested or compelled to do so by governmental or law enforcement authorities or applicable law. If your account is closed at the request of governmental or law enforcement authorities, you may not receive proceeds of the redemption if the Fund is required to withhold such proceeds.

Disclosure of Portfolio Holdings. A description of the Fund’s policies and procedures with respect to the disclosure of portfolio securities is available in the Fund’s SAI, which is available on the Fund’s website at www.Moncapfund.com.

Buying Shares

How to Make Payments. Unless purchased through a financial intermediary, all investments must be made by check, Automated Clearing House (“ACH”) or wire. All checks must be payable in U.S. dollars and drawn on U.S. financial institutions. In the absence of the granting of an exception consistent with the Trust’s Anti-Money Laundering Program, the Fund does not accept purchases made by credit card check, starter check, checks with more than one endorsement (unless the check is payable to all endorsees), cash or cash equivalents (for instance, you may not pay by money order, cashier’s check, bank draft or traveler’s check). The Fund and the Adviser also reserve the right to accept in kind contributions of securities in exchange for shares of the Fund.

Checks. Checks must be made payable to “Monongahela All Cap Value Fund.” For individual, sole proprietorship, joint, Uniform Gifts to Minors Act (“UGMA”) and Uniform Transfers to Minors Act (“UTMA”) accounts, checks may be made payable to one or more owners of the account and endorsed to “Monongahela All Cap Value Fund.” A \$20 charge may be imposed on any returned checks.

ACH. The Automated Clearing House system maintained by the Federal Reserve Bank allows banks to process checks, transfer funds and perform other tasks. Your U.S. financial institution may charge you a fee for this service.

Wires. You may instruct the U.S. financial institution with which you have an account to make a federal funds wire payment to the Fund. Your U.S. financial institution may charge you a fee for this service.

Minimum Investments. The Fund accepts investments in the following minimum amounts:

	Minimum Initial Investment	Minimum Additional Investment
Standard Accounts	\$5,000	\$250
Retirement Accounts	\$5,000	\$250

The Fund reserves the right to waive minimum investment amounts, if deemed appropriate by an officer of the Trust.

Registered investment advisers and financial planners may be permitted to aggregate the value of accounts in order to meet minimum investment amounts.

Account Requirements. The following table describes the requirements to establish certain types of accounts in the Fund.

Type of Account	Requirement
<p>Individual, Sole Proprietorship and Joint Accounts Individual accounts and sole proprietorship accounts are owned by one person. Joint accounts have two or more owners (tenants).</p>	<ul style="list-style-type: none"> Instructions must be signed by all persons named as account owners exactly as their names appear on the account.
<p>Gifts or Transfers to a Minor (UGMA, UTMA) These custodial accounts are owned by a minor child but controlled by an adult custodian.</p>	<ul style="list-style-type: none"> Depending on state laws, you may set up a custodial account under the UGMA or the UTMA. The custodian must sign instructions in a manner indicating custodial capacity.
<p>Corporations/Other Entities These accounts are owned by the entity, but control is exercised by its officers, partners or other management.</p>	<ul style="list-style-type: none"> The entity should submit a certified copy of its articles of incorporation (or a government-issued business license or other document that reflects the existence of the entity) and a corporate resolution or a secretary’s certificate.

Type of Account	Requirement
<i>Trusts</i>	<ul style="list-style-type: none"> • The trust must be established before an account may be opened. • The trust should provide the first and signature pages from the trust document identifying the trustees.

Account Application and Customer Identity Verification. To help the government fight the funding of terrorism and money laundering activities, federal law requires financial institutions to obtain, verify and record information that identifies each person who opens an account.

When you open an account, the Fund will ask for your first and last name, U.S. taxpayer identification number (“TIN”), physical street address, date of birth and other information or documents that will allow the Fund to identify you. If you do not supply the required information, the Fund will attempt to contact you or, if applicable, your financial adviser. If the Fund cannot obtain the required information within a timeframe established in its sole discretion, your application will be rejected.

When your application is in good order and includes all required information, your order will normally be processed at the NAV next calculated after receipt of your application and investment amount. The Fund will attempt to verify your identity using the information that you have supplied and other information about you that is available from third parties, including information available in public and private databases, such as consumer reports from credit reporting agencies.

The Fund will try to verify your identity within a timeframe established in its sole discretion. If the Fund cannot do so, the Fund reserves the right to redeem your investment at the next NAV calculated after the Fund decides to close your account. If your account is closed, you may realize a gain or loss on the Fund shares in the account. You will be responsible for any related taxes and will not be able to recoup any redemption fees assessed, if applicable.

Policy on Prohibition of Foreign Shareholders. The Fund requires that all shareholders be U.S. persons or U.S. resident aliens with a valid TIN (or show proof of having applied for a TIN and commit to provide a valid TIN within 60 days) in order to open an account with the Fund.

Investment Procedures. The following table describes the procedures for investing in the Fund.

How to Open an Account	How to Add to Your Account
<p><i>Through a Financial Intermediary</i></p> <ul style="list-style-type: none"> • Contact your financial intermediary using the method that is most convenient for you. 	<p><i>Through a Financial Intermediary</i></p> <ul style="list-style-type: none"> • Contact your financial intermediary using the method that is most convenient for you.
<p><i>By Check</i></p> <ul style="list-style-type: none"> • Call, write or e-mail the Fund or visit the Fund’s website for an account application. • Complete the application (and other required documents, if applicable). • Mail the Fund your original application (and other required documents, if applicable) and a check. 	<p><i>By Check</i></p> <ul style="list-style-type: none"> • Fill out an investment slip from a confirmation or write the Fund a letter. • Write your account number on your check. • Mail the Fund the investment slip or your letter and the check.

How to Open an Account	How to Add to Your Account
<p><i>By Wire</i></p> <ul style="list-style-type: none"> • Call, write or e-mail the Fund or visit the Fund’s website for an account application. • Complete the application (and other required documents, if applicable). • Call the Fund to notify the transfer agent that you are faxing your completed application (and other required documents, if applicable). The transfer agent will assign you an account number. • Mail the Fund your original application (and other required documents, if applicable). • Instruct your U.S. financial institution to wire money to the Fund. 	<p><i>By Wire</i></p> <ul style="list-style-type: none"> • Instruct your U.S. financial institution to wire money to the Fund.
<p><i>By ACH Payment</i></p> <ul style="list-style-type: none"> • Call, write or e-mail the Fund or visit the Fund’s website for an account application. • Complete the application (and other required documents, if applicable). • Call the Fund to notify the transfer agent that you are faxing your completed application (and other required documents, if applicable). The transfer agent will assign you an account number. • Mail the Fund your original application (and other required documents, if applicable). • The transfer agent will electronically debit your purchase proceeds from the U.S. financial institution identified on your account application. • ACH purchases are limited to \$25,000 per day. 	<p><i>By ACH Payment</i></p> <ul style="list-style-type: none"> • Call the Fund to request a purchase by ACH payment. • The transfer agent will electronically debit your purchase proceeds from the U.S. financial institution account identified on your account application. • ACH purchases are limited to \$25,000 per day.

Systematic Investments. You may establish a systematic investment plan to automatically invest a specific amount of money (up to \$25,000 per day) into your account on a specified day and frequency not to exceed two investments per month. Payments for systematic investments are automatically debited from your designated savings or checking account via ACH. Systematic investments must be for at least \$250 per occurrence. If you wish to enroll in a systematic investment plan, complete the appropriate section on the account application. Your signed account application must be received at least three business days prior to the initial transaction. The Fund may terminate or modify this privilege at any time. You may terminate your participation in a systematic investment plan by notifying the Fund at least two days in advance of the next withdrawal.

A systematic investment plan is a method of using dollar cost averaging as an investment strategy that involves investing a fixed amount of money at regular time intervals. However, a program of regular investment cannot ensure a profit or protect against a loss as a result of declining markets. By continually investing the same amount, you will be purchasing more shares when the price is lower and fewer shares when the price is higher. Please call (855) 392-9331 (toll free) for additional information regarding systematic investment plans.

Limitations on Frequent Purchases. The Board has adopted policies and procedures with respect to frequent purchases and redemptions of Fund shares by Fund shareholders. It is the Fund’s policy to discourage short-term trading. Frequent trading in the Fund, such as traders seeking short-term profits from market momentum, time zone arbitrage and other timing strategies may interfere with the management of the Fund’s portfolio and result in

increased administrative and brokerage costs and a potential dilution in the value of Fund shares. As money is moved in and out, the Fund may incur expenses buying and selling portfolio securities and these expenses are borne by Fund shareholders. The Fund does not permit market timing and will not knowingly accommodate trading in Fund shares in violation of these policies.

Focus is placed on identifying redemption transactions which may be harmful to the Fund or its shareholders if they are frequent. These transactions are analyzed for offsetting purchases within a predetermined period of time. If frequent trading trends are detected, an appropriate course of action may be taken. The Fund reserves the right to cancel, restrict or reject without any prior notice, any purchase order, including transactions representing excessive trading, transactions that may be disruptive to the management of the Fund's portfolio, and purchase orders not accompanied by payment.

Because the Fund may receive purchase and sale orders through financial intermediaries that use omnibus or retirement accounts, the Fund cannot always detect frequent purchases and redemptions. As a consequence, the Fund's ability to monitor and discourage abusive trading practices in such accounts may be limited.

The investment in foreign securities, including ADRs, may make the Fund more susceptible to the risk of market timing activities because of price differentials between ADRs and their underlying foreign securities that may be reflected in the NAV of the Fund's shares. The Fund generally prices its foreign securities using their closing prices from the foreign markets in which they trade, typically prior to the Fund's calculation of its NAV. These prices may be affected by events that occur after the close of a foreign market but before the Fund prices its shares. Although the Fund may fair value foreign securities in such instances and notwithstanding other measures that the Fund may take to discourage frequent purchases and redemptions, investors may engage in frequent short-term trading to take advantage of any arbitrage opportunities in the pricing of the Fund's shares. There is no assurance that fair valuation of securities will reduce or eliminate market timing.

The investment in securities of small capitalization or mid capitalization companies may make the Fund more susceptible to market timing, as shareholders may try to capitalize on the market volatility of such securities and the effect of the volatility on the value of Fund shares.

In addition, the sale of Fund shares is subject to a redemption fee of 1.00% of the amount redeemed within 60 days of purchase. This redemption fee, which may discourage frequent trading by investors, offsets costs the Fund may incur as a result of redemptions related to market timing. See "Selling Shares - Redemption Fee" for additional information.

Canceled or Failed Payments. The Fund accepts checks and ACH payments at full value subject to collection. If the Fund does not receive your payment for shares or you pay with a check or ACH payment that does not clear, your purchase will be canceled within two business days of notification from your bank that your funds did not clear. You will be responsible for any actual losses and expenses incurred by the Fund or the transfer agent. The Fund and its agents have the right to reject or cancel any purchase request due to non-payment.

Selling Shares

Redemption orders received in good order will be processed at the next calculated NAV. The right of redemption may not be suspended, except for any period during which (1) the NYSE is closed (other than customary weekend and holiday closings) or the Securities and Exchange Commission (the "SEC") determines that trading thereon is restricted, (2) an emergency (as determined by the SEC) exists as a result of which disposal by the Fund of its securities is not reasonably practicable or as a result of which it is not reasonably practicable for the Fund to determine fairly the value of its net assets, or (3) the SEC has entered a suspension order for the protection of the shareholders of the Fund.

If the Fund has not yet collected payment for the shares being sold, it may delay sending redemption proceeds until such payment is collected, which may be up to 15 calendar days.

How to Sell Shares from Your Account

Through a Financial Intermediary

- If you purchased shares through your financial intermediary, your redemption order must be placed through the same financial intermediary.

By Mail

- Prepare a written request including:
 - your name(s) and signature(s);
 - your account number;
 - the Fund name;
 - the dollar amount or number of shares you want to sell;
 - how and where to send the redemption proceeds;
 - a Medallion Signature Guarantee (if required); and
 - other documentation (if required).
- Mail the Fund your request and documentation.

By Telephone

- Call the Fund with your request, unless you declined telephone redemption privileges on your account application.
- Provide the following information:
 - your account number;
 - the exact name(s) in which the account is registered; and
 - an additional form of identification.
- Redemption proceeds will be mailed to you by check or electronically credited to your account at the U.S. financial institution identified on your account application.

By Systematic Withdrawal

- Complete the systematic withdrawal section of the application.
- Attach a voided check to your application.
- Mail the completed application to the Fund.
- Redemption proceeds will be mailed to you by check or electronically credited to your account at the U.S. financial institution identified on your account application.

Wire Redemption Privileges. You may redeem your shares with proceeds payable by wire unless you declined wire redemption privileges on your account application. The minimum amount that may be redeemed by wire is \$5,000.

Telephone Redemption Privileges. You may redeem your shares by telephone, unless you declined telephone redemption privileges on your account application. You may be responsible for an unauthorized telephone redemption order as long as the transfer agent takes reasonable measures to verify that the order is genuine. Telephone redemption orders may be difficult to complete during periods of significant economic or market activity. If you are not able to reach the Fund by telephone, you may mail us your redemption order.

Systematic Withdrawals. You may establish a systematic withdrawal plan to automatically redeem a specific amount of money or shares from your account on a specified day and frequency not to exceed one withdrawal per month. Payments for systematic withdrawals are sent by check to your address of record, or if you so designate, to your bank account by ACH payment. To establish a systematic withdrawal plan, complete the systematic withdrawal section of the account application. The plan may be terminated or modified by a shareholder or the Fund at any time without charge or penalty. You may terminate your participation in a systematic withdrawal plan at any time by contacting the Fund sufficiently in advance of the next withdrawal.

A withdrawal under a systematic withdrawal plan involves a redemption of Fund shares and may result in a gain or loss for federal income tax purposes. Please call (855) 392-9331 (toll free) for additional information regarding systematic withdrawal plans.

Signature Guarantee Requirements. To protect you and the Fund against fraud, signatures on certain requests must have a Medallion Signature Guarantee. A Medallion Signature Guarantee verifies the authenticity of your

signature. You may obtain a Medallion Signature Guarantee from most banking institutions or securities brokers but not from a notary public. Written instructions signed by all registered shareholders with a Medallion Signature Guarantee for each shareholder are required for any of the following:

- written requests to redeem \$100,000 or more;
- changes to a shareholder's record name or account registration;
- paying redemption proceeds from an account for which the address has changed within the last 30 days;
- sending redemption and distribution proceeds to any person, address or financial institution account not on record;
- sending redemption and distribution proceeds to an account with a different registration (name or ownership) from your account; and
- adding or changing ACH or wire instructions, the telephone redemption or exchange option or any other election in connection with your account.

The Fund reserves the right to require Medallion Signature Guarantees on all redemptions.

Redemption Fee. If you redeem your shares in the Fund within 60 days of purchase, you will be charged a 1.00% redemption fee. The fee is charged for the benefit of the Fund's remaining shareholders and will be paid to the Fund to help offset transaction costs.

To calculate the redemption fee (after first redeeming any shares associated with reinvested distributions), the Fund will use the first-in, first-out (FIFO) method to determine the holding period. Under this method, the date of the redemption will be compared with the earliest purchase date of shares in the account.

The following redemptions are exempt from application of the redemption fee if you request the exemption at the time the redemption request is made:

- redemption of shares in a deceased shareholder's account;
- redemption of shares in an account of a disabled individual (disability of the shareholder as determined by the Social Security Administration);
- redemption of shares purchased through a dividend reinvestment program;
- redemption of shares pursuant to a systematic withdrawal plan;
- redemptions in a qualified retirement plan under section 401(a) of the Internal Revenue Code ("IRC") or a plan operating consistent with Section 403(b) of the IRC; and
- redemptions from share transfers, rollovers, re-registrations within the same fund or conversions from one share class to another within the Fund, if applicable.

The Fund may require appropriate documentation of eligibility for exemption from application of the redemption fee.

Certain financial intermediaries that collect a redemption fee on behalf of the Fund may not recognize one or more of the exceptions to the redemption fee listed above. Financial intermediaries may not be able to assess a redemption fee under certain circumstances due to operational limitations (i.e., on the Fund's shares transferred to the financial intermediary and subsequently liquidated). Customers purchasing shares through a financial intermediary should contact the financial intermediary or refer to the customer's account agreement or plan document for information about how the redemption fee is treated. If a financial intermediary that maintains an account with the transfer agent for the benefit of its customers collects a redemption fee for the Fund, no redemption fee will be charged directly to the financial intermediary's account by the Fund.

Small Account Balances. If the value of your account falls below the minimum account balances in the following table, the Fund may ask you to increase your balance. If the account value is still below the minimum balance after 60 days, the Fund may close your account and send you the proceeds. The Fund will not close your account if it falls below these amounts solely as a result of Fund performance.

	Minimum Account Balance
Standard Accounts	\$5,000
Retirement Accounts	\$5,000

Redemptions in Kind. Pursuant to an election filed with the SEC, under certain circumstances the Fund may pay redemption proceeds in portfolio securities rather than in cash. If the Fund redeems shares in this manner, the shareholder assumes the risk of a subsequent change in the market value of those securities, the costs of liquidating the securities (such as brokerage costs) and the possibility of a lack of a liquid market for those securities. Please see the SAI for more details on redemptions in kind.

Lost Accounts. The transfer agent will consider your account lost if correspondence to your address of record is returned as undeliverable on two consecutive occasions, unless the transfer agent determines your new address. When an account is lost, all distributions on the account will be reinvested in additional shares of the Fund. In addition, the amount of any outstanding check (unpaid for six months or more) and checks that have been returned to the transfer agent may be reinvested at the current NAV, and the checks will be canceled. However, checks will not be reinvested into accounts with a zero balance but will be held in a different account. Any of your unclaimed property may be transferred to the state of your last known address if no activity occurs in your account within the time period specified by that state's law.

Retirement Accounts

You may invest in shares of the Fund through an IRA, including traditional and Roth IRAs, also known as a "Qualified Retirement Account." The Fund may also be appropriate for other retirement plans, such as 401(k) plans. Before investing in an IRA or other retirement account, you should consult your tax advisor. Whenever making an investment in an IRA or certain retirement plans, be sure to indicate the year to which the contribution is attributed.

OTHER INFORMATION

Distributions and Dividend Reinvestments. The Fund declares dividends from net investment income and pays them annually. Any net capital gains realized by the Fund are distributed at least annually.

Most investors typically have their income dividends and capital gain distributions (each a “distribution”) reinvested in additional shares of the distributing Fund. If you choose this option, or if you do not indicate any choice, your distributions will be reinvested. Alternatively, you may choose to have your distributions of \$10 or more sent directly to your bank account or paid to you by check. However, if a distribution is less than \$10, your proceeds will be reinvested. If five or more of your distribution checks remain uncashed after 180 days, all subsequent distributions may be reinvested. For federal income tax purposes, distributions to shareholders other than tax-exempt investors and qualified retirement accounts are treated the same whether they are received in cash or reinvested.

Taxes. The Fund intends to operate in a manner such that it will not be liable for federal income or excise taxes.

The Fund’s distributions of net investment income and the excess of net short-term capital gain over net long-term capital loss are taxable to you as ordinary income, except as noted below. The Fund’s distributions of net capital gain (that is, the excess of net long-term capital gain over net short-term capital loss), if any, are taxable to you as long-term capital gain, regardless of how long you have held your shares. Distributions may also be subject to state and local income taxes. Some Fund distributions may also include a nontaxable return of capital. Return of capital distributions reduce your tax basis in your Fund shares and are treated as gain from the sale of the shares to the extent they exceed your basis.

The Fund’s dividends attributable to its “qualified dividend income” (i.e., dividends received on stock of most domestic and certain foreign corporations with respect to which the Fund satisfies certain holding period and other restrictions) generally will be subject to federal income tax for individual and certain other non-corporate shareholders (each, an “individual shareholder”) who satisfy those restrictions with respect to their Fund shares at the rates for net capital gain – a maximum of 15% for a single shareholder with taxable income not exceeding \$406,750 (\$457,600 for married shareholders filing jointly) and 20% for individual shareholders with taxable income exceeding those respective amounts (which will be adjusted for inflation annually). A portion of the Fund’s dividends also may be eligible for the dividends-received deduction allowed to corporations; the eligible portion may not exceed the aggregate dividends the Fund receives from domestic corporations subject to federal income tax (thus excluding, among others, real estate investment trusts) and excludes dividends from foreign corporations, subject to similar restrictions. However, dividends a corporate shareholder deducts pursuant to that deduction are subject indirectly to the federal alternative minimum tax.

A distribution reduces the NAV of the Fund’s shares by the amount of the distribution. If you purchase shares prior to a distribution, you are taxed on the full amount of the distribution even though it represents a partial return of your investment.

The sale (redemption) of Fund shares is generally taxable for federal income tax purposes. You will recognize a gain or loss on the transaction equal to the difference, if any, between the amount of your net redemption proceeds and your tax basis in the redeemed Fund shares. The gain or loss will be capital gain or loss if you held your Fund shares as capital assets. Any capital gain or loss will be treated as long-term capital gain or loss if you held the Fund shares for more than one year at the time of the redemption, and any such gain will be taxed to individual shareholders at the 15% or 20% maximum federal income tax rates mentioned above. Any capital loss arising from the redemption of Fund shares held for six months or less, however, will be treated as long-term capital loss to the extent of the amount of net capital gain distributions received with respect to those shares.

The Fund is required to withhold federal income tax at the rate of 28% on all distributions and redemption proceeds (regardless of the extent to which you realize gain or loss) otherwise payable to you (if you are an individual shareholder) if you fail to provide the Fund with your correct TIN or to make required certifications, or if you have been notified by the Internal Revenue Service (the “IRS”) that you are subject to backup withholding. Backup withholding is not an additional tax, and any amounts withheld may be credited against your federal income tax liability once you provide the required information or certification.

A Fund shareholder who wants to use the average basis method for determining basis in Fund shares that he or she acquired or acquires after December 31, 2011 (“Covered Shares”), must elect to do so in writing (which may be electronic). If a Fund shareholder fails to affirmatively elect the average basis method, the basis determination will be made in accordance with the Fund’s default method, which is first-in first-out. If, however, a Fund shareholder wishes to use a different IRS-accepted method for basis determination (e.g., a specific identification method), the shareholder may elect to do so. The basis determination method that a Fund shareholder elects may not be changed with respect to a redemption of Covered Shares after the settlement date of the redemption.

In addition to the requirement to report the gross proceeds from a redemption of shares, the Fund (or its administrative agent) must report to the IRS and furnish to its shareholders the basis information for Covered Shares and indicate whether they had a short-term (one year or less) or long-term (more than one year) holding period. Fund shareholders should consult with their tax advisors to determine the best IRS-accepted basis determination method for their tax situation and to obtain more information about how the basis reporting law applies to them.

An individual shareholder whose “modified adjusted gross income” exceeds a threshold amount (\$250,000 for married persons filing jointly and \$200,000 for single taxpayers) (“Excess”) is required to pay a 3.8% federal tax on the lesser of (1) the Excess or (2) the individual’s “net investment income,” which generally includes dividends, interest, and net gains from the disposition of investment property (including distributions the Fund pays and net gains realized on the redemption of Fund shares). This tax is in addition to any other taxes due on that income. Shareholders should consult their own tax advisors regarding the effect, if any, this provision may have on their investment in Fund shares.

After December 31 of each year, the Fund will mail to its shareholders reports containing information about the income tax status of distributions paid during the year. For further information about the tax effects of investing in the Fund, please see the SAI and consult your tax advisor.

Organization. The Trust is a Delaware statutory trust, and the Fund is a series thereof. The Fund does not expect to hold shareholders’ meetings unless required by federal or Delaware law. Shareholders of each series of the Trust are entitled to vote at shareholders’ meetings unless a matter relates only to a specific series (such as the approval of an advisory agreement for the Fund). From time to time, large shareholders may control the Fund or the Trust.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's financial performance for the period of the Fund's operations. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned or lost on an investment in the Fund, assuming reinvestment of all dividends and distributions.

This information has been audited by BBD, LLP, an independent registered public accounting firm, whose report, along with the Fund's financial statements, are included in the annual report dated April 30, 2014, which is available upon request.

	July 1, 2013 (a) through April 30, 2014
